Pass Just & Humane Immigration Reform Now

Dear Speaker Pelosi,

Immigration Reform can't wait. We are entrusting you with the lives and futures of millions of immigrants and urge you to move forward with Just and Humane Immigration Reform this year.

Immigrants are a vibrant force in our culture, economy and society. They come here to work, to be reunited with family or to avoid persecution. However, our immigration policies do not incorporate immigrants into society, instead our broken immigration system tears families apart, violates human rights and exploits working individuals.

We, the people who you represent have been waiting 23 years for just and humane immigration reform. It is imperative that the United States, home to millions of immigrants integrates its people without reservation. We must move forward NOW on a path to legalization for the undocumented population and the protection of human and constitutional rights of all individuals.

We urge you to pass a Just and Humane Immigration Reform this year.

Sincerely
